So what's the show all about?

This show is a fast-moving farce set in Mrs Stancliffe's Rose Cottage Bed & Breakfast where her guests - nearly all women - return year after year. Her next door neighbour, the elderly, silver-tongued, 'Bud the Stud' Davis believes they come to spend time with him for 'romantic liaisons'. The prim and proper Mrs Stancliffe steadfastly denies this, but reluctantly accepting the fact that 'Bud the Stud' is good for business. Her other neighbour and would-be suitor Henry Mitchell is a retired chemist who has developed a blue pill called 'Venusia,' intended to increase the libido of menopausal women. But the pill hasn't been tested.

Add to the guest list three older women - Victoria Ambrose, a romance novelist whose personal life seems to be lacking in romance; Hillary Hudson, a friend of Henry's who has agreed to test the Venusia; and Charmaine Beauregard, a 'Southern Belle'. Fun and mayhem arises when the pills get swapped around... and we won't spoil the rest of the story!
